Crockett Facilities Services Named to Inc. 5000 List of Fastest-Growing Private Companies

BOWIE, MD (August 22, 2013) — [Crockett Facilities Services, Inc. \(CFSI\)](#), a leading provider of facilities management, property maintenance, and HVAC mechanical services to government and commercial customers, today announced the company has placed on the [Inc. 5000 list](#) of fastest-growing private companies in America. The list represents the most comprehensive look at the most important segment of the economy—America’s independent entrepreneurs. Crockett Facilities Services earned the position of 3,325 with three-year sales growth of 95 percent.

“We are pleased to be included in this prestigious list for the first time since the company began in 2000,” said vice president and co-owner Mark Crockett. “We have grown by developing trusted relationships with our customers and serving their needs by ensuring comfortable and safe office environments, conserving energy, and reducing operating costs – so they can increase their return on investment. We will continue to offer a differentiated level of service along with valuable building management tools for even more effective building control.”

The Inc. 5000 achievement follows the recent announcement that CFSI ranks as a top ten mechanical contractor in the Washington, DC metro area by the *Washington Business Journal*. This is the third year running that CFSI made the list.

Companies on the Inc. 5000 are featured in *Inc. magazine’s* September issue. Inc. magazine based its 2013 list rankings on percentage revenue growth when comparing 2009 to 2012. To qualify, companies must have been founded and generating revenue by March 31, 2009. They had to be U.S.-based, privately held, for profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2012. The minimum revenue required for 2009 is \$100,000; the minimum for 2012 is \$2 million.

About Crockett Facilities Services, Inc.

Crockett Facilities Services, Inc. (CFSI), a woman-owned mechanical contractor, delivers building operations and maintenance, mechanical contracting, and heating and air conditioning services to commercial and government clients.
