

WHO WE ARE AS WE SERVE WITH PRIDE

It has been said, that the best way to find yourself is to lose yourself in the service of others. That statement has never been more relevant than right now, in the midst of a global pandemic.

As mechanical contractors, the work we do is often “behind the scenes” - but very essential. MCAMW contractors are the best-trained and highest skilled professionals in the industry - delivering safety, comfort, and health to our community.

We are proud of the work of our contractors, so we are launching **MCAMW Contractor Focus** - a series of short messages that highlight **Who We Are As We Serve With Pride**.

MEMBER SPOTLIGHT

Tony Long, Chief Engineer and Project Manager

Tony Long, Chief Engineer and Project Manager at Crockett Facilities Services Inc., has been the company’s longest standing Project Manager. For the past 14 years, Tony has dedicated himself to the company and the mechanical contracting industry by continuously going above and beyond the call of his responsibilities. A Washington D.C. native, Tony has lived in Maryland for 40 years and is the proud father to two sons and three stepdaughters as well as the owner of two dogs, Sho-Nough and Trouble.

Tony has worked at the John Wilson Building, home of the Washington D.C. Mayoral and Council Offices, for the entirety of his career at Crockett Facilities Services, Inc. The company was first awarded the contract in 2006.

Tony’s customer service skills are one of his many attributes that make him a stand-out professional in the industry. He and his team have been at the forefront of ensuring that customer relationships are a top priority at the company, which has translated into many long-standing relationships with clients. Truly going above and beyond, Tony has even stayed overnight at the John Wilson Building several times to provide additional operational support during special events and meetings.

In addition to his work ethic, Tony is altruistic at heart. He not only excels in his professional career, but genuinely cares about and supports those around him. In 2016, Tony was the recipient of the Crockett Facilities Services, Inc. REACH Award. “REACH” stands for Respect, Enthusiasm, Accountability, Customer Service, and Honesty.

Pictured from Left to Right:
 Tony Long with Cindy Crockett as he receives the 2016 Crockett Facilities Services, Inc. REACH Award; Tony and the Crockett Facilities Services, Inc. team volunteering for National Rebuilding Together Day.

Tony is always first to volunteer for Crockett Day of Service, a day when members of the team volunteer to support a variety of community initiatives. Tony and the Crockett Facilities Services, Inc. team have participated several times in National Rebuilding Together Day. In 2009, Tony not only volunteered his time and expertise, but volunteered to be the team captain for the community service initiative. Prior to the service event, he spent multiple sessions preparing the home for the Crockett Facilities Services, Inc. team to come in to make the needed repairs.

During the challenging times throughout the COVID-19 pandemic, Tony has made himself available 24/7 and has acted on the frontlines at the John Wilson Building for all operational needs. He has modified his shifts to accommodate to the building’s needs, with many of these shifts including hours outside of a regular work day. As a building with a large amount of traffic, he strives to maintain proper sanitation to ensure the safety of all employees and guests. Tony also extends his care and consideration to his staff by regularly inquiring about each team member’s health and wellness.

“Tony has never met a challenge he hasn’t been able to meet or exceed. His positive attitude sets him apart from the pack and his giving nature makes him a pivotal asset to our team. He is always the first to volunteer to help no matter what the cause and, as a part of our Safety Committee at Crockett Facilities, Inc., he provides valuable insight on safety topics and any overlooked items”

– Katie Lakomyj, Direct of Human Resources
 Crockett Facilities Services, Inc.

SHARE YOUR STORY

The MCAMW is proud to share this story as it demonstrates the willingness and professionalism of our member contractors. Please let us know if you have a project or initiative that your firm is undertaking and can be featured in our Contractor Focus.
